Of the increased amount reported in the Committee's amended pre-Primary report, all but approximately \$50 was a result of the Committee's inadvertent omission of two disbursements in the original pre-Primary report, one disbursement on April 1, 2014 in the amount of \$2,500 to Charlie Flanagan and one disbursement on April 3, 2014 in the amount of \$36,413.08 to The Dover Group. The inadvertent omission of the disbursements was caused, in part, by a human error while entering expenditure dates in NGP VAN. The dates of the expenditures were inadvertently entered as happening in July instead of April of 2014. As the Commission is aware, Ms. Naughton lost the primary election. Nevertheless, the cause of the inadvertent omissions has been identified and addressed, and the Committee is confident that the error will not recur.
